

# Segway® X2 Golf

It's the most innovative and fun way to cruise the course! The X2 Golf is an adaptation of the Segway® Personal Transporter (PT) that combines self-balancing technology with uniquely-configured accessories such as a golf bag carrier, and scorecard holder to transform an ordinary round of golf into one that you'll remember forever.

Simply moving

### Easy to learn, fun to ride

The Segway PT was recently updated with new LeanSteer™ technology. Now you just lean in the direction you want to go. The new wireless InfoKey™ controller allows you to power on, receive information about, and alarm your Segway PT wirelessly.

### Ride and socialize

Part of the fun of golf is the socializing. The x2 Golf is quiet enough that you can carry on a normal conversation while riding side-by-side down the fairway. You'll also be able to maneuver places where golf carts can't go.

### Travel directly to your lie

The one-person design of the x2 Golf allows you to travel directly to your ball. It cuts down on time wasted waiting for others. Plus there will be no more walking back to the cart to switch out a club - all your clubs go right along with you for your shot.

### It's friendly to the turf

Independent studies have confirmed that the Segway PT is significantly friendlier to the turf than a golf cart. It's lighter, has a smaller contact patch with the ground below, and uses advanced traction control algorithms so that any impact is no worse than a set of footprints.

Max Speed	Range	Tires	Wheels
Up to 12.5 mph / 20 kph	Up to 14 mi. / 22.5 km Up to 36 holes*	8 in / 20 cm wide low-pressure tires with special low-profile turf tread	10 in / 25 cm black aluminum wheels

\*Range depends on terrain, payload, and riding style.
